

SVA THEATRE A/V SPECS

Technical specifications for both of our auditoriums

Please contact theatretech@sva.edu with any questions

PROJECTION:

Both theatres are equipped with Barco DP4K-32B projectors.

AUDIO:

Both theatres are equipped with Meyer Sound speakers (Acheron series) with Galileo sound processors capable of 7.1 and 5.1 mixes.

SCREEN DIMENSIONS (for slides):

- FLAT: 1998w x 1080h
- SCOPE: 2048w x 858h
- 16:9 / 1920w x 1080h

CURTAIN LOGO:

Logo must be saved as a PNG or PDF with a transparent background.

- 1920w x 1080h

Video/Film Specifications (in order of preference)

- DCP, either Cru or USB portable, or delivered via downloadable link. (Downloadable links are not accepted for festivals -- please contact the Tech Team for more information.) 4K, 3D, and 7.1 sound can only be screened via DCP.
- Apple ProRes422 (not HQ). We can play files encoded with a 5.1 sound mix (not 7.1), in addition to standard stereo. We cannot play .mp4 files.
- BluRay/DVD (standard)
- HDCam (not SR)
- 35mm Film -- changeover only, no platters. It's essential that you inform the Tech Team at least two weeks in advance if you plan on screening a film.

WALK-IN MUSIC:

Must be provided as .mp3 files, or Spotify Playlists. Spotify cannot be played from one account in more than one location. To utilize Spotify in both the lobby & theatre you need to either have two accounts, or share your playlist to another account.

We also have commercial-free Pandora available.

Physical media should be delivered at least 7 days before your event to:

SVA Theatre
